

FITZ-MILL

Model M5A Comminutor

Electrics fully integrated  
in base enclosure

## **FITZ®MILL**

### **Model M5A Comminutor**

The FitzMill model M5A Comminutor with integral base and electric enclosure is perfect for product development, research and small batch processing. All aspects of the machine have been designed to meet GMP requirements and to facilitate accurate and repeatable operation and cleaning.

- Sealed separation of product contact parts from technical components provide superior GMP
- All parts immediately accessible for cleaning and maintenance
- Convenient design minimizes with minimum space requirements
- Explosion-proof option available
- Product containment system available
