

# ULTIMATE PROCESS FLEXIBILITY... THREE MILLS IN ONE

- **Low Energy Milling/Sifting** Using Low Speed, Bar Rotor, Rasping Screen
- **Granulating/Chopping** Using Medium Speeds, Knife Blades
- **Pulverizing** Using High Speed, Impact Blades

**NEW!**

**Bar Rotor ▲**

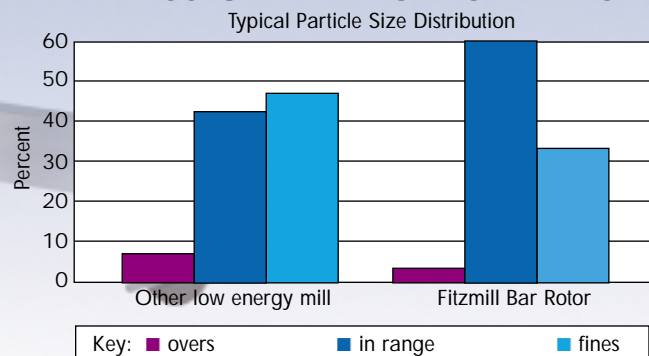

**Knife/Impact Rotor ▲**

The new bar rotor is interchangeable with the classic Fitzmill® knife/impact rotor to provide an extremely versatile size-reduction unit with ultimate process flexibility.

## BENEFITS

- **No screen contact**
- **High capacity**
- **Wet or dry products**
- **High or low energy**
- **Latest GMP design**
- **Easy disassembly and cleaning**
- **PLC and validation available**

## LESS GENERATION OF FINES

Utilize our laboratories in Elmhurst, Illinois; South Plainfield, New Jersey or St. Niklaas, Belgium to confirm the bar rotor's value in your process.
